

Sairaj Borkar

Full-Stack Developer — Software Engineer

8861671363 — sairajborkar31@gmail.com

github.com/Sairaj-creator — https://www.linkedin.com/in/sairaj-borkar/

Objective

Dedicated Computer Science student specializing in **Full-Stack Web Development**. Experienced in building scalable applications with React, Node.js, and Python. Seeking a Software Engineering role to apply strong **DSA** and **OOP** fundamentals within an **Agile** environment.

Education

Canara Engineering College

Bachelor of Engineering in Computer Science

Current Cumulative **CGPA: 8.29/10.0**

Mangaluru

Expected May 2027

Skills

- **Languages:** Java, Python, TypeScript, SQL, C, HTML5, CSS3
- **Frameworks & Libraries:** React JS, Angular JS, React Native, Node.js, Express.js, GraphQL, FastAPI, Flask
- **Databases, Tools & OS:** PostgreSQL, SQL, Firebase, AWS(Basic), Git, GitHub, Linux, Jenkins
- **Technical Concepts:** Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), CI/CD, Agile Methodology, Prompt Engineering, AI-Assisted Development

Projects

Real-time Stress Monitoring System — GitHub Link

Jan 2026

- **Engineered** a monitoring tool using **Python** and **Flask** to process live video feeds at 30+ FPS via **OpenCV**.
- **Trained** a **Random Forest** classifier on a proprietary dataset of 3,500+ images to categorize 7 distinct emotional states.
- **Applied MediaPipe Face Mesh** for geometric feature extraction, mapping 6 physiological markers to a real-time stress index.

ZenCode: AI Developer Wellness Extension — Live Extension — GitHub

Dec 2025

- **Architected** and deployed a **TypeScript**-based productivity extension to the VS Code Marketplace, currently utilized by 90+ developers to monitor cognitive load in real-time.
- **Engineered** a behavioral stress-detection algorithm that analyzes keystroke dynamics, high-frequency file switching, and backspace spikes to accurately identify “frantic debugging” states.
- **Integrated** a theme-aware **Chart.js** analytics dashboard and utilized the VS Code API to programmatically trigger an ‘Auto Zen Mode,’ actively mitigating developer burnout.

Sahaay AI (Assistive Companion) — React, Node.js, SQLite, ONNX — Live Link — GitHub

Jul 2026

- **Architected** an AI-powered assistive React web app, delivering real-time scene descriptions via Vision Models with **sub-2-second** response times for visually impaired users.
- **Integrated ONNX Runtime Web** and **TensorFlow.js** for offline currency detection, achieving **sub-100ms** inference latency and reducing network dependency by **100%**.
- **Developed** a secure **Node.js** proxy backend for Gemini/Llama APIs, implementing strict rate-limiting to cap requests at **30 per minute** and prevent API abuse.
- **Managed** relational data with **SQLite** to persist 128-dimensional facial embeddings, ensuring **100%** data retention and integrity across continuous Render deployments.

Achievements & Activities

- **Core Contributor – Orbit (Production App):** Contributed to the UI design and frontend architecture of a pre-launched application that is currently live in production. [Live Link]
- **Top 5 Finalist – The Bengaluru AI Hackathon:** Recognized as one of the Top 5 shortlisted teams at the National Level Inter-College AI Hackathon organized by Sapthagiri NPS University (May 2026).
- **Top 50 Finalist – KVG Sulia Hackathon:** Shortlisted among the top 50 teams out of 1,000+ registered participants for competitive problem-solving and rapid software prototyping.
- **1st Place – Mini Project Expo:** Awarded top honors for the development of a Real-time Stress Monitoring System, distinguished as the premier project at Canara Engineering College (2025).

Certifications

- **Java Programming (NPTEL & GeeksforGeeks):** Achieved Elite Certification (Score: **84%**) from NPTEL [NPTEL] and completed foundational coursework via GFG [GFG].
- **Full Stack Web Development (Udemy):** Comprehensive bootcamp including **React**, **Node.js**, and **SQL** database design.
- **SQL Intermediate (HackerRank):** Verified proficiency in complex relational database queries. [Certificate]
